I2I Clubs (Idea2Impact)

Points, Badges, Evaluation Tracks & Seed Grant Tiers Architecture

Comprehensive operational framework governing student eco-enterprise verification, the two-category badge system, 6-pillar criteria scoring, and tiered performance grants across 15 Sri Lankan schools.

1. The Two-Category Badge Architecture Gamification

To eliminate micro-level clutter and drive sustained engagement, the platform implements a clean Two-Category Model: **6 Persistent Track Badges** (evolving through 4 mastery tiers) alongside **6 Honorary Milestone Badges**.

4-TIER MASTERY PROGRESSION LADDER (PER TRACK)

TIER 1: NOVICE	TIER 2: ACTIVE	TIER 3: ADVANCED	TIER 4: MASTER
0 – 100 points	101 – 300 points	301 – 700 points	701+ points

BADGE TITLE	TRACK IDENTIFIER	OPERATIONAL SCOPE & VERIFICATION CRITERIA	EVOLUTION
Waste-to-Value Champion	`track_waste_to_value`	Systematic waste segregation, campus composting routines, PET plastic recycling, and circular material recovery diverted from municipal dumps.	T1 → T4
School Enterprise Star	`track_school_enterprise`	Commercial sales revenue via school bookshops, I2I Pola eco-market stalls, seedling sales, and buyer purchase orders.	T1 → T4
Action Ready Club	`track_action_ready`	Campus sorting bins deployed, tools and weighing scales maintained, and 4+ consecutive weeks of active verified logging.	T1 → T4
Student Eco-Leader	`track_student_leader`	Autonomous student committee leadership, after-school collection shifts, peer team coordination, and junior grade mentoring.	T1 → T4
Clean Green Community	`track_clean_community`	Off-campus shramadana cleanups, community tree planting drives, canal plastic interception, and local household workshops.	T1 → T4
Green Charter School	`track_green_charter`	Principal-endorsed school green charter, dedicated weekly eco-club timetable slot, and institutional ban on single-use lunch sheet wrappers.	T1 → T4

Platform Milestone Badges (Cumulative Feats & Integrity)

MILESTONE BADGE	BADGE KEY	UNLOCK THRESHOLD	NATIONAL SIGNIFICANCE
First Footprint	`milestone_first_action`	**25 cumulative pts**	First verified green activity logged across any circular track.
Green Seedling	`milestone_500_club`	**500 cumulative pts**	School club achieving continuous operational momentum.
Century Grove	`milestone_1000_club`	**1,000 cumulative pts**	Established circular leader eligible for enhanced seed funding.
National Pilot Vanguard	`milestone_2500_club`	**2,500 cumulative pts**	Elite enterprise status across the 15 Sri Lankan secondary schools.
100 kg Zero-Waste	`milestone_zero_waste_100kg`	**100 kg waste diverted**	Verified material milestone weighed on certified school scales.
Clean Audit Shield	`milestone_clean_audit`	**0 audit deductions**	100% data integrity verified through random 10% expert audits.

2. Points & Transaction Scoring Formulas Algorithmic Engine

To maintain data integrity while encouraging daily youth engagement, logs are routed into two distinct pipelines based on revenue risk.

MICRO-TRANSACTIONS ≤ Rs. 15,000
Low-stakes daily green activities (sorting, compost weighing, meeting logs). Endorsed by **School Supervising Teachers** with a randomized **10% Expert Panel Audit**.

MACRO-TRANSACTIONS > Rs. 15,000 / Pitch
High-revenue bulk sales, commercial tenders, or seed pitch events. Requires certified sales invoice attachment and independent scoring by the **National Expert Panel**.

A. MICRO-TRANSACTION FORMULA (TEACHER APPROVED)

```
Points = (15 [Base] + min(Waste_kg × 1.8, 35) + min(Revenue_USD × 0.4, 20)) × Campus_Multiplier
```

- *Campus Multiplier:* 1.0× (Verified inside school GPS geofence) | 0.85× (Off-campus activity)
- *Maximum Point Yield:* ~70.0 pts per single activity log.

B. MACRO-TRANSACTION FORMULA (NATIONAL EXPERT PANEL)

```
Macro Points = (Weighted_Criteria_Score × 0.85 + min(Waste_kg × 1.5, 60) + min(Revenue_USD × 0.25, 50)) × Norm_Index
```

- *Weighted Criteria Score:* Evaluated 0-100 across GIZ 6-Pillar policy matrix.
- *Normalization Index (Norm_Index):* Harmonic balance between financial gain and circular material diverted (0.60× - 1.35×).
- *Anti-Gaming Shield:* Revenue with zero environmental impact (< 1 kg) is penalized with a 0.62× damping factor.

GIZ National Policy Weights (6 Evaluation Criteria)

EVALUATION CRITERION	POLICY WEIGHT	CORE ASSESSMENT OBJECTIVE
1. Relevance & Environmental Impact	20%	Measurable reduction of school landfill waste, single-use plastics, and local emissions.
2. Business / Market Viability	20%	Quality of products, genuine buyer demand, financial sustainability, and unit economics.
3. Feasibility & Action-Readiness	15%	Availability of raw feedstock, safe equipment, storage logistics, and realistic production cycle.
4. Student Ownership & Leadership	20%	Student-led governance, operational shift ownership, teamwork, and inclusive gender participation.
5. Sustainability & Community Impact	15%	Community outreach, behavioral awareness in student households, and local council partnerships.
6. Institutional Commitment	10%	School principal support, active teacher guidance, space allocation, and long-term club charter.

3. Composite Leaderboard Tiers & Seed Grants Grant Allocation

National performance unlocks competitive GIZ top-off seed grants on top of the universal Rs. 450,000 base funding.
